## DIRECT REFERRALS

### The Referral Process

1. Direct referrals should be entered into the automated referral system as a **ROUTINE** request. The automated referral system should only serve as a communication tool between the specialist and the PCP and should not result in any patient care delay. If you do not have access to the automated referral system, please fax the information directly to the specialist or contact your network specialist to setup an account in the automated referral system.
2. Providers should not refuse to see a member for a direct referral visit without an authorization number. Direct referrals do not require an authorization and an authorization number is not necessary to see a member. If you need more information on the referral, please work with the PCP's office to ensure that all records that you need are forwarded to you.
3. **Referrals maybe initiated by the PCP.** Referrals will be good for one-year and may authorize 12 visits or more within the one-year period depending on the member's condition.
4. **Referrals may alternately be initiated by the treating specialist.** Specialist to Specialist referrals must be for 1 consult visit only and are good for a 180 day period.
5. Member self-referrals do not require a written referral or an entry in the automated referral system.
